

PLANETARY GRINDERS

The HTG series is a successful and proud innovation of XINGYI in 2014. Its unique design includes a high quality metal body and a recognizable stainless steel water tank. It is designed with an elegant outlook in different sizes from small, medium to large. As the top quality product of XINGYI, all gearboxes are manufactured with the most advanced technology. High performance dust collectors and tools are available to pair with the HTG series.
